## **DETAILED ACTION**

### ***Priority***

This application is a 371 of PCT/EP05/50272 01/21/2005, is acknowledged.

### ***Status of Claims***

Claims 1-11 are currently pending in the application.

Receipt is acknowledged of amendment / response filed on March 09, 2009 and that has been entered.

Claims 5, 7 and 8 are withdrawn from further consideration pursuant to 37 C.F.R. 1.142 (b) as being drawn to a non-elected subject matter.

### ***Information Disclosure Statement***

Receipt is acknowledged of Information Disclosure Statement (IDS), filed on 07/24/2006, which has been entered in the file.

### ***Response to Election/Restriction***

In response to the restriction requirements, Applicants have elected Group I, which includes claims 1-4, 6 and 9-11 drawn to a compound of formula (I), and the elected species as set forth and disclosed in Example 1 (Response, page 1), is acknowledged. Because Applicants did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election **without** traverse (MPEP § 818.03(a)). Therefore, the requirement for restriction is still deemed proper.

Applicants preserve their right to file a divisional on the non-elected subject matter.

As set forth in the restriction requirement and an election of a single compound (or set of compounds), the invention will encompass all compounds that fall within the scope of the search is as follows:

A compound of the formula (I) wherein:

R<sub>1</sub> is as claimed except

a) hydrogen, hydroxyl or amino; or

b) C<sub>1</sub>-C<sub>8</sub>-alkyl, C<sub>3</sub>-C<sub>8</sub>-cycloalkyl, C<sub>1</sub>-C<sub>8</sub>-alkanoyl, C<sub>1</sub>-C<sub>8</sub>-alkoxycarbonyl, aryl-C<sub>3</sub>-C<sub>4</sub>-alkyl

a) C<sub>1</sub>-C<sub>8</sub>-alkyl, C<sub>3</sub>-C<sub>8</sub>-cycloalkyl,

R<sub>2</sub> is as claimed except

R<sub>3</sub> is as claimed,

R<sub>4</sub> is as claimed,

R<sub>5</sub> is as claimed,

R<sub>6</sub> is as claimed and

all other variables are as defined.

As a result of the election and the corresponding scope of the compound identified, claims 5, 7 and 8 and the remaining subject matter of claims 1-4, 6 and 9-11 are withdrawn from further consideration pursuant to 37 CFR 1.142 (b) as being drawn to non-elected inventions. The withdrawn subject matter of claims 5, 7 and 8 is properly restricted as it differs materially in structure and in element from the elected subject matter supra so as to be patentably distinct there from.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-4, 6 and 9-11, are rejected under the judicially created doctrine of obviousness-type double patenting, as being unpatentable over claims 1-7 and 9 of co-pending Application No. 10/593,461 (US '461) and also over claims 1-2 of co-pending Application No. 11/488,854 (US '854). Although the conflicting claims are not identical, they are not patentably distinct from each other because all sets of claims are drawn to the same art recognized subject matter. This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented. The compounds taught by co-pending applications are similar to instant application because a reference anticipating one set of claim will render the other obvious and it would have been obvious to one of ordinary skill in the art at the time of the invention was made since co-pending applications teach the generic compounds, compositions and their methods of use which are similar to the instantly claimed invention.

The subject matter claimed in the instant application is fully disclosed and covered in the co-pending Application US '461 or US '854. Therefore, the disclosure of US '461 or US '854 that teach many permutation and combination substitutions, which would easily place Applicants

Art Unit: 1626

invention in possession of the public at the time of Applicants invention was filed. The indiscriminate selection of "some" among "many" is *prima facie* obvious, *In re Lemin*, 141 USPQ 814 (1964). Therefore, in the instant case, one skilled in the chemical art would be motivated to choose to replace variable substitutions in permutation and combinations in core formula (I) to obtain the desired products in view of the known teaching of the art. The claimed compounds are so closely related structurally to the homologous and /or analogous compounds of the reference as to be structurally obvious therefore in the absence of any unobviousness or unexpected properties. Moreover, any other differences are but obvious structural modifications, which would be apparent to one skilled in the chemical art that can use similar substitutions, would expect to have the same or essentially the same results. Therefore, in looking at the instantly claimed compounds and their method of uses as a whole, the claimed compounds would have been suggested to one skilled in the art unless unobvious or unexpected results can be shown.

### ***Objections***

Claims 1-4, 6 and 9-11 are objected to for containing non-elected subject matter. The claims should be amended to exclude non-elected subject matter and within the scope of elected compound.
